Nanaimo Foundry is a well established company with many long-term customers. We are very diversified with full shop facilities, providing services from Engineering & Design to Manufacturing and Installation. We have taken the time and effort to establish excellent relationships with our suppliers, which enables us to have on-time delivery and also enables us to take on "rush jobs." Our skilled tradesmen and experienced personnel are highly motivated and strive for a happy working environment. Safety is a high priority for us and we consistently have excellent safety stats.
